SESAM

User's Guide for Project Participants

2009-11-19 Release 7

Management Summary

The FP6 and FP7 are the Sixth and Seventh European Community framework programmes for Research, Technological development and Demonstration.

The implementation of the framework programmes objectives is achieved through a number of RTD projects as well as various support activities carried out by the research DGs – RTD, INFSO, TREN, ENTR and FISH. The key business process spans from the publication of the call, then submission, evaluation, and funding of proposals, followed by project contracting, follow-up and reporting.

In context of the project follow-up, the Commission seeks an integrated service to support timely acquisition and analysis of the relevant information about project organisation, progress and continuous alignment to EC research key objectives. After aggregation, the statistics shall then feed a dashboard or used for reports generation.

The required business functions shall be supported by SESAM, an IT application made up of 2 dedicated modules, specialising in data acquisition (Front office), and SESAM administration (Back office).

The Front office represents the main data input module in SESAM architecture, which provides users with means to fill-in various on-line forms. In general, the high-level functionality of SESAM - Front Office is to:

- Allow Internet users to fill-in Forms in a user-friendly way.
- Store in a central repository collected Forms, in the structured (XML) format, thus allowing their further processing and performing various kinds of statistical analysis.
- Generate printable version of collected Forms (PDF format) and store them to central repository.

The herein document provides the comprehensive description of the SESAM - Front Office functionality, from the GUI usage point of view. The following functionalities are described in details, using a step-by-step approach:

- Submit Questionnaire – allows filling-in and submitting Questionnaire for specified project.
- Save/Submit Report – allows filling-in, saving and submitting Report for specified project and Project Participant.
- Manage Reports – allows displaying existing Forms for specified project and Project Participant, as well as, additional manipulation of displayed Reports (e.g. accessing of PDF files and attachments).
- Fill-In Form – allows filling-in Forms in a user-friendly way, including sub-functionalities like the management of publications, applications for patent and exploitable foregrounds.
- Access User Document– allows accessing User Documents.
- Send Email to Helpdesk – allows sending emails to the helpdesk.
- Register as a New Participant – allows registering as a new Project Participant.
- FP6/FP7 Layout – Different Layout for The FP6/FP7 Project Selected.
- Manage Deliverables – allows accessing, uploading, updating and deleting Deliverables.

Document Glossary

Term	Definition
EC	European Commission
ED	EUROPEAN DYNAMICS
FP6	Sixth EU Framework Programme for Research and Technological Development
FP7	Seventh EU Framework Programme for Research and Technological Development
ERA	European Research Area
RTD	Research, Technological Development and Demonstration
RTD Project	A project within FP6/FP7
SECUNDA	FP6/FP7 Security module hosting user competences
ECAS	European Commission Authentication Service
CPF	Contract Preparation Forms
CPM	Contract and Project Management module
FORCE	Form C Editing module
EURAXESS	Researcher's Mobility Portal where the organisations' job vacancies are posted
SESAM	SED, ESS, ARI, MCA requirements implementation project
MCA	SESAM user group – Marie Curie Actions
SED	SESAM user group – Socio-Economic Dimensions
GAP	Gender Action Plan
QUEST	SESAM module – Front office Module
QUEST-I	SESAM module – Back office Internal Module
Project ID (Contract ID)	Six-digit number, uniquely identifying a project (contract)
User	General term used to describe any type of user.
Actor	Concept used in the context of use cases. It describes a user who performs one or more actions.
Form	General term used to describe any kind of feedback or survey form that can be submitted through QUEST.
Questionnaire	Form created by anonymous user.
Report	Form created by authenticated user (username/password combination).
Vacancy	Job Vacancy managed in SESAM in order to be exported to EURAXESS finally.
Uncompleted Report/Vacancy	Report/Vacancy that is temporarily saved within the system, eventually to be completed and submitted (extracted in case of Vacancy).
Completed Report/Vacancy	Report/Vacancy that is completed and submitted by the Project Contractor (different than Project Coordinator), eventually to be checked and submitted (extracted in case of Vacancy) by the Project

	Coordinator.
Intermediate Report/Vacancy	Common term for Uncompleted and Completed Reports/Vacancies.
Submitted Report	Report that is completed and submitted within the system.
Exported Vacancy	Vacancy that is completed and submitted within the system being exported to EURAXESS.
Replicated Report	Kind of Submitted Report, which was completed and submitted within the system, but afterwards rejected by the Project Officer (using QUEST-I) in order to be corrected.
Project Contractor	Person representing one contractor (participant) on the project.
Project Coordinator	Project Contractor that coordinates the project on behalf of the contractors (participant index 1).
Project Reviewer	Person representing a reviewer of the project progress.
Project Participant	Person participating in a project by submitting reports through QUEST, i.e. common term for Project Contractors and Reviewers.
Link (Active Link)	Information linking particular QUEST Internet user to particular Project Participant, thus allowing him/her to create various QUEST Reports for the project. A link is represented by a combination of username (used by user to be authenticated in QUEST as a Project Participant), Project ID (identifying the project) and participant index (identifying the particular Project Participant).
Pending Link	Link not allowing particular QUEST Internet user to create various QUEST Reports for the project, but can be activated by the QUEST-I Administrator or Project Coordinator.

User Manual

The SESAM - Front Office GUI implements the following functionality:

- filling-in and submitting Questionnaires
- filling-in, saving and submitting Reports
- deleting Intermediate Reports
- accessing PDF files of Intermediate Reports
- accessing PDF files of Submitted Reports
- accessing attachments of Submitted Reports
- accessing User Documents
- sending emails to helpdesk
- different layout for the FP7 project selected.
- managing of the Participant Registrations (Project Links) by Project Coordinator
- collecting and forwarding of Vacancies to Euraxess
- managing Project Publications
- managing Project Applications for Patent
- managing Project Exploitable Foregrounds
- managing Deliverables

`Submit Questionnaire`

This option allows submitting Questionnaire for specified project.

Note: if you access to the application through the Participant Portal, this functionality is not available.

In order to submit Questionnaire, the following steps should be considered:

1. Click the link QUESTIONNAIRES inside the menu of Home page. The QUESTIONNAIRE TYPE SELECTION PAGE is presented (Figure 1).

Questionnaires
Select questionnaire type
Please select the type of questionnaire you wish to fill-in for your project, following the steps below:
1. In the 'Instrument' selection list, set the instrument of your project.
2. In the 'Project type' selection list, set the type of your project.
3. In the 'Questionnaire type' selection list, select the type of questionnaire you wish to fill-in.
4. Click the button 'Edit Questionnaire' to proceed.

Figure 2: Project Identification Page (With Entered Project ID)

4. Enter Project ID in the field PROJECT ID.

5. Click the button VALIDATE. In case of successful project identification the FORM EDITING PAGE is presented (Figure 10); otherwise appropriate error message is presented.
6. Fill-in all Form fields (please refer to Fill-In Form).
7. Click the button SUBMIT.

- In case of successful submission (i.e. if all Form fields are properly filled-in) the QUESTIONNAIRE TYPE SELECTION PAGE is presented (Figure 1), accompanied with the COMPLETION MESSAGE BOX (Figure 3).

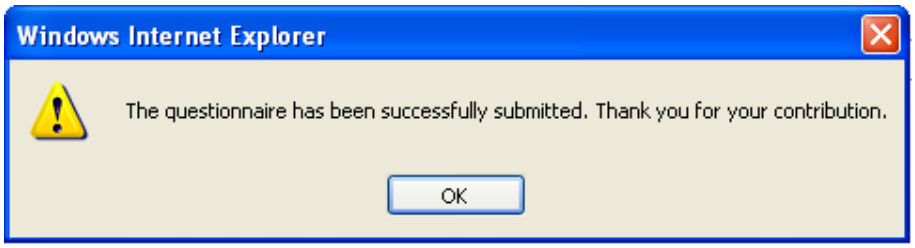

Figure 3: Completion Message Box

- In case of unsuccessful submission (i.e. if some Form fields are not properly filled-in) the refreshed FORM EDITING PAGE is displayed, clearly presenting the invalid fields (please refer to Fill-In Form). Please proceed with Step 6.

`Save/Submit Report`

This option allows saving/submitting Report for specified project and Project Participant.

If you access the application through the Participant Portal, you can directly jump to the step 4. The other functionality is not accessible. The project selection must be done using the Participant Portal.

In order to save/submit Report, the following steps should be considered:

1. After the successful user authentication (see Login) the SELECT PROJECT PAGE is presented (Figure 4).

FP6 Work with a Project 12385
Please choose one of the following:
To go to home page, select 'Home' from menu.
To fill-in review report, select 'Review Reports' from menu.
To fill-in report including Form C type, select 'Reports' from menu.
To fill-in job vacancy, select 'Vacancies' from menu.
To logout from the system, select 'Logout' from menu.
What is FP6? : FP6 step by step : Find a Call : Get Support : Find a Partner : Find a Document : Prepare & submit a proposal : What's New?

Figure 5: Work with a Project Page

4. Click any of the available links in the menu (REPORTS, REVIEW REPORTS, ASSESSMENT REPORTS, DOCUMENTS, AMENDMENT REQUESTS, NOTIFICATIONS). The REPORT SELECTION PAGE for specified project and particular Project Participant is presented (Figure 6).
5. Specify Report:
   a. Select form type using the drop-down list REPORT / DOCUMENT / AMENDMENT / NOTIFICATION TYPE.
   b. Select participant using the drop-down list PARTICIPANT.
   c. If applicable, select REPORTING PERIOD for which the report will be submitted

6. Open Report for editing
    a. Create new report:
        i. Click the button CREATE NEW REPORT / DOCUMENT / AMENDMENT REQUEST / NOTIFICATION.
            - In case that data may be imported from some previously submitted Report (e.g. the Report to be created is periodic one and there are Reports submitted for previous reporting periods), the DATA IMPORT WINDOW is presented (Figure 7). To proceed without data import, click the button NO; the FORM EDITING PAGE is presented (Figure 10), displaying the Report without imported data. Otherwise, specify the Report from which to import the data, by selecting the participant index (the drop-down list PARTICIPANT INDEX) and reporting period (the drop-down list REPORTING PERIOD), and click the button YES. The FORM EDITING PAGE is presented (Figure 10), displaying the Report with imported data.

Data Import Window -- Webpage Dialog
CORDIS
2002 - 2006
2007 - 2013
Data import
Do you want to import the data from an already submitted RTN Periodic Activity Report?
If yes, please select the participant index and reporting period and click the button 'Yes'; otherwise click the button 'No' to proceed without importing the data.
Participant index
1
Reporting period
Other
Yes
No

Figure 7: Data Import Window

- In case that data cannot be imported from some previously submitted Report (e.g. the Report to be created is not periodic one or there are no Reports submitted for previous reporting periods), the FORM EDITING PAGE is presented (Figure 10).
- In case that the Project Participant is a Project Coordinator, s/he should not be able to create new Reports for other Project Contractors, if not explicitly linked through QUEST-I to the particular Project Contractor.

b. Open previously saved Report:

i. Click the hyperlink in the column FORM NAME of the INTERMEDIATE REPORTS table for target Report. The FORM EDITING PAGE is presented (Figure 10), displaying the selected Report.

- Project Contractors different than Project Coordinator should not be able to edit Reports with status COMPLETED.

7. Fill-in Form (please refer to 0 Fill-In Form).
8. Save/Submit Report

a. Save Report

i. Click the button SAVE. The REPORT SELECTION PAGE from which complete action was initiated is presented (Figure 6).

b. Submit Report:

i. Click the button SUBMIT.

- In case of successful submission (i.e. if all Form fields are properly filled-in) the REPORT SELECTION PAGE from which complete action was initiated is presented (Figure 6).
  - In case of Project Participant different than Project Contractor, instead of being stored as Submitted Report, the Report is stored as a Completed Report and displayed in the table INTERMEDIATE REPORTS with status COMPLETED. Afterwards, the Report may be further edited and submitted finally by the Project Coordinator.

- In case of unsuccessful submission (i.e. if some Form fields are not properly filled-in) the refreshed FORM EDITING PAGE is displayed, clearly presenting the invalid fields (please refer to 0 Fill-In Form). Please proceed with Step 10.b.

Manage Reports

This option allows displaying existing Forms for specified project and Project Participant, as well as, additional manipulation of displayed Reports (e.g. accessing of PDF files and attachments).

In order to manage Reports, the following steps should be considered:

1. Reach the REPORT SELECTION PAGE (Figure 6). Please refer to 0 Save/Submit Report.
2. **Select Report Type:** A type of Reports to be managed may be modified by using the drop-down list REPORT TYPE. The REPORT SELECTION PAGE is refreshed, displaying in the tables INTERMEDIATE REPORTS and SUBMITTED REPORTS existing Reports of selected type.
3. **Select Project Participant:** A Project Participant, for which to manage Reports, may be modified by using the drop-down list PARTICIPANT. The REPORT SELECTION PAGE is refreshed, displaying in the tables INTERMEDIATE REPORTS and SUBMITTED REPORTS existing Reports of selected Project Participant.
   a. For Project Coordinators the drop-down list PARTICIPANT contains all Project Participants, as well as, entry ALL representing all Project Participants. In this way, Project Coordinators may access Completed Reports of other Project Contractors, in order to check and submit them finally.
4. **Select Reporting Period**: Drop-down list Reporting Period contains the remaining values of period(s) for which new report can be created. Selected value is the period that contains the day of creating new report. If report has been already fulfilled for that period, the first available period will be pre-selected. If the Final report or Document or Amendment Request or Notification is selected, the Reporting Period select box is not displayed. If the Periodic report is selected and the report has been fulfilled for all the reporting periods by the selected participant, the Reporting Period select box is displayed but disabled.
5. **Select Report Status:** A status of Submitted Reports to be managed may be modified by using the drop-down list REPORT STATUS. The REPORT SELECTION PAGE is refreshed, displaying in the table SUBMITTED REPORTS existing Reports of selected statuses.
6. **Edit Intermediate Report:** A previously saved Report may be edited by clicking the hyperlink in the column FORM NAME of the INTERMEDIATE REPORTS table. The FORM EDITING PAGE (Figure 10) is presented, displaying the selected Report.
   a. Project Contractors different than Project Coordinator are not able to edit Completed Reports (Reports with status COMPLETED).
7. **Delete Intermediate Report:** A previously saved Report may be deleted by clicking the hyperlink DELETE in the column DELETE of the INTERMEDIATE REPORTS table. The REPORT SELECTION PAGE is refreshed, reflecting the modified information about Intermediate Reports.
   a. Project Contractors different than Project Coordinator are not able to delete Completed Reports (Reports with status COMPLETED).
8. **Access Intermediate Report PDF:** The PDF file of a previously saved Report may be accessed by clicking the hyperlink PRINT DRAFT in the column PRINT of the INTERMEDIATE REPORTS table. The PDF file, clearly marked as draft one, is created and the FILE DOWNLOAD WINDOW is displayed (Figure 8).

Cancel
While files from the Internet can be useful, some files can potentially harm your computer. If you do not trust the source, do not open or save this file. What's the risk?

Figure 8: File Download Window

9. **Access Submitted Report PDF:** The PDF file of a Submitted Report may be accessed by clicking the hyperlink in the column FORM NAME of the SUBMITTED REPORTS table. If the PDF file exists for selected Report, the FILE DOWNLOAD WINDOW is displayed (Figure 8); otherwise, if PDF file does not exist (still not created), appropriate error message is displayed (Figure 9).

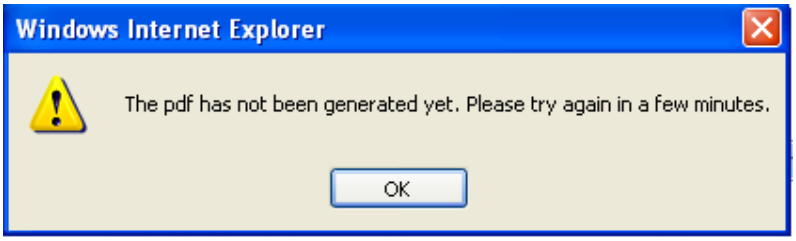

Figure 9: PDF Creation Error Message

10. **Access Submitted Report Attachments:** The attachments of a Submitted Report (as a ZIP archive) may be accessed by clicking the hyperlink in the column ATTACHMENTS of the SUBMITTED REPORTS table. The FILE DOWNLOAD WINDOW is displayed (Figure 8).

`Fill-In Form`

This option allows filling-in various Forms in a user-friendly way, using the FORM EDITING PAGE (Figure 10). The Forms have been designed in such a way that the possibility of errors during their completion is minimised:

- Radio buttons and selection lists are used for filling-in questions with limited number of answers.
- Date fields are filled-in through dedicated functionality (0 Fill-In Date Field), using the DATE WINDOW (Figure 12).
- Country fields are filled-in through dedicated functionality (0 Fill-In Country Form Field), using the COUNTRY WINDOW (Figure 13).

Filling-in tables with variable number of rows is supported as well (0 Fill-In Table with Variable Number of Rows). It is also possible to attach annexes (0 Manage Report Attachments) to Reports (not Questionnaires) to be submitted.

Submission of Forms involves filling-in all obligatory (mandatory) fields, which are indicated by a red asterisk next to them. Furthermore, some fields may be conditionally obligatory (mandatory), i.e. obligatory under some conditions, for example depending on the answer to some previous question. Such fields are indicated by a green asterisk next to them.

Process of Form submission includes the validation of filled-in Form. In case of unsuccessful submission (i.e. if some Form fields are not properly filled-in) the refreshed FORM EDITING PAGE is displayed, clearly presenting the invalid fields (Figure 11). In general, 2 kinds of validation are performed:

- **Validation of obligatory fields:** It is validated if obligatory field (or conditionally obligatory field, if related condition is fulfilled) is filled-in with any value.
- **Validation of type:** It is validated if the field is filled-in with a value of appropriate type. The following types are supported:
  - String: Any text (no type validation).
  - Integer: Number (e.g. 1)
  - Double: Decimal number (e.g. 1.5). It should be noted that "." (character dot) is used as decimal character and not "," (character comma).

The most common validation errors are the following:

- Obligatory field (or conditionally obligatory field, if related condition is fulfilled) is not filled-in.
- Integer field is filled-in with a decimal number (e.g. 1.5 instead of 1).
- Double field is filled-in with a decimal number using "," as decimal character (e.g. 1,5 instead of 1.5).

Figure 11: Form Editing Page (With Displayed Invalid Fields)

Fill-In Date Field

This option allows filling-in date form fields in a user-friendly way.

In order to fill-in date form field, the following steps should be considered:

1. Reach the FORM EDITING PAGE (Figure 10) displaying the Form with at least one date field.
2. Click inside the date field. The DATE WINDOW is displayed (Figure 12).

Figure 12: Date Window

3. Browse for a date and click on a date. The DATE WINDOW is closed and the selected date is displayed in the edited field on the FORM EDITING PAGE from which complete action was initiated.

Fill-In Country Form Field

This option allows filling-in country form fields in a user-friendly way.

In order to fill-in country form field, the following steps should be considered:

1. Reach the FORM EDITING PAGE (Figure 10) displaying the Form with at least one country field.
2. Click inside the country field. The COUNTRY WINDOW is displayed (Figure 13).

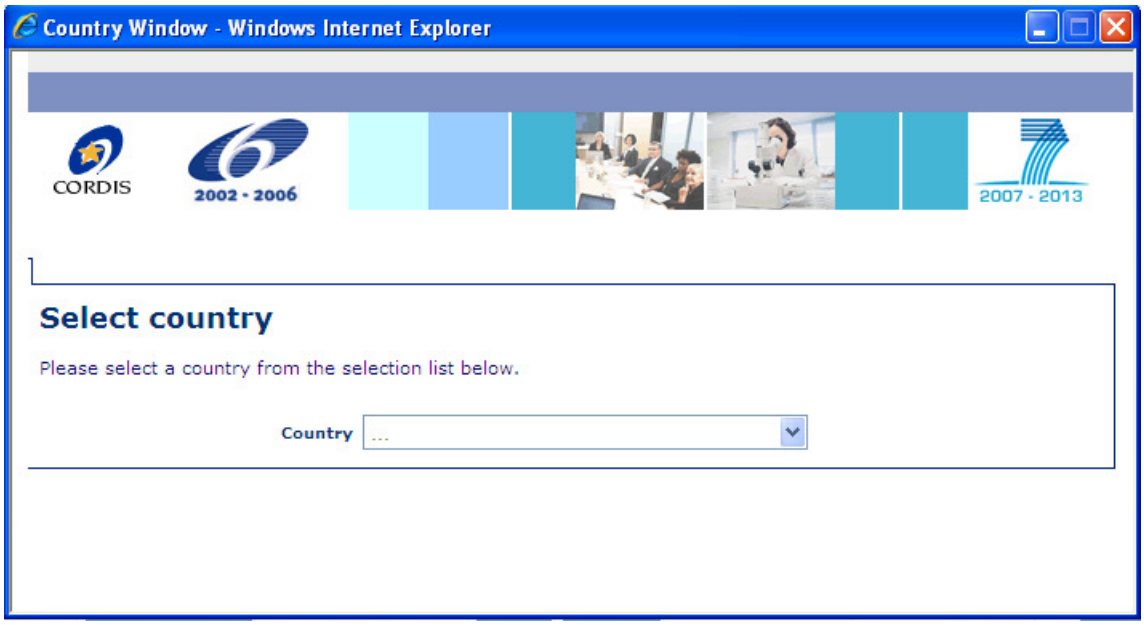

Figure 13: Country Window

3. Select a country from the drop-down list COUNTRY. The COUNTRY WINDOW is closed and the selected country is displayed in the edited field on the FORM EDITING PAGE from which complete action was initiated.

Fill-In Table with Variable Number of Rows

This option allows filling-in tables with variable number of rows.

In order to fill-in table with variable number of rows, the following steps should be considered:

1. Reach the FORM EDITING PAGE (Figure 10) displaying the Form with at least one table with variable number of rows.
2. **Insert Row:** Click the button INSERT ROW (Figure 14). The FORM EDITING PAGE is refreshed, displaying the table with inserted row at the table bottom.
3. **Delete Row:** Click the button DELETE ROW (Figure 14). The FORM EDITING PAGE is refreshed, displaying the table with the last row deleted.

It should be noted that completely empty rows (without any filled-in field) do not have to be deleted manually, even if they contain obligatory fields; the completely empty rows will be automatically removed by the system on the Form submission.

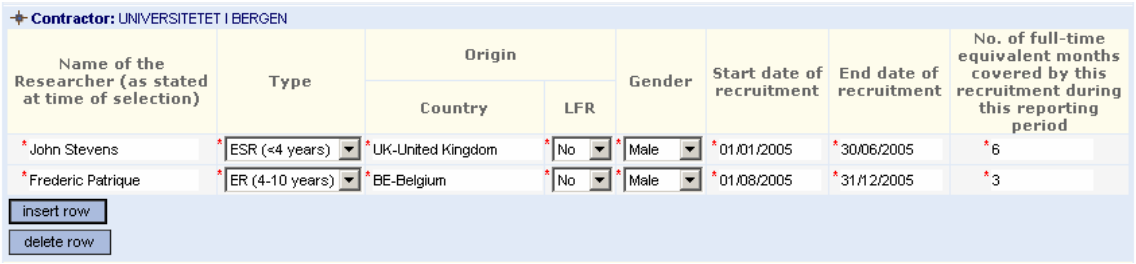

Figure 14: Table with Variable Number of Rows (Form Editing Page)

Manage Report Attachments

This option allows attaching annexes to the Reports to be submitted.

In order to attach annexes, the following steps should be considered:

1. Reach the FORM EDITING PAGE (Figure 10) by opening a previously saved Report. Please refer to 0 Manage Reports Step 6.
2. Click the button ATTACHMENTS at the bottom of the FORM EDITING PAGE (the button exists only for Reports that supports attaching annexes). The ATTACHMENTS WINDOW is displayed (Figure 15).

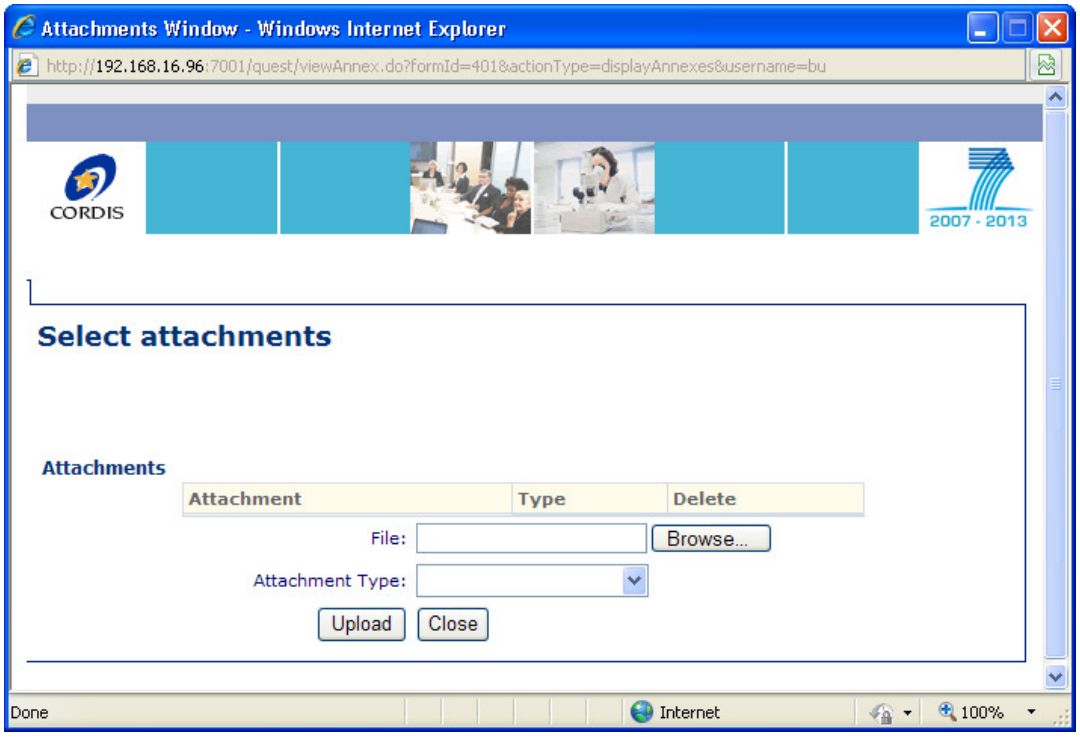

Figure 15: Attachments Window

3. Click the button BROWSE and browse for the attachment. The path of the selected file is displayed inside the field in front of the button BROWSE.
4. Select the ATTACHMENT TYPE from the drop-down list.
5. Click the button UPLOAD. The button UPLOAD becomes disabled and the uploading of the selected file as a Report attachment is initiated. After the file upload is finished, the button UPLOAD becomes enabled and refreshed ATTACHMENTS WINDOW is displayed, reflecting the modified information about the Report attachments.
6. **Access Attachment:** An attachment may be accessed by clicking the hyperlink in the column ATTACHMENT of the ATTACHMENTS table. The FILE DOWNLOAD WINDOW is displayed.
7. **Delete Attachment:** An attachment may be deleted by clicking the hyperlink in the column DELETE of the ATTACHMENTS table. The ATTACHMENTS WINDOW is refreshed, reflecting the modified information about the Report attachments.

Manage Report Publications

This option allows attaching publications to the Reports to be submitted (on the reports where the publications available, e.g. "IAPP-ITN Final Report").

In order to attach publications, the following steps should be considered:

1. Reach the FORM EDITING PAGE (Figure 10), displaying the Form with at list one upload field (Figure 16), by opening a previously saved Report. Please refer to 0 Manage Reports Step 6.

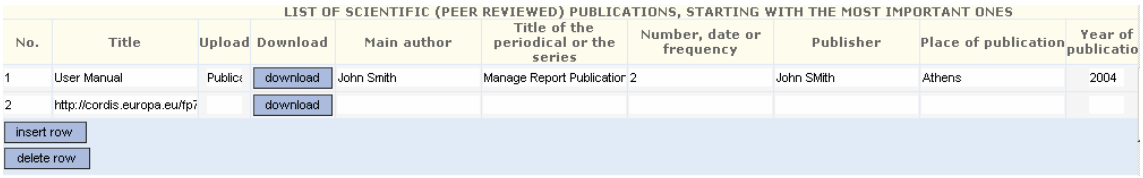

Figure 16: Table with the Upload Field (Form Editing Page)

2. Click inside the upload field. The UPLOAD PUBLICATION WINDOW is displayed (Figure 17).

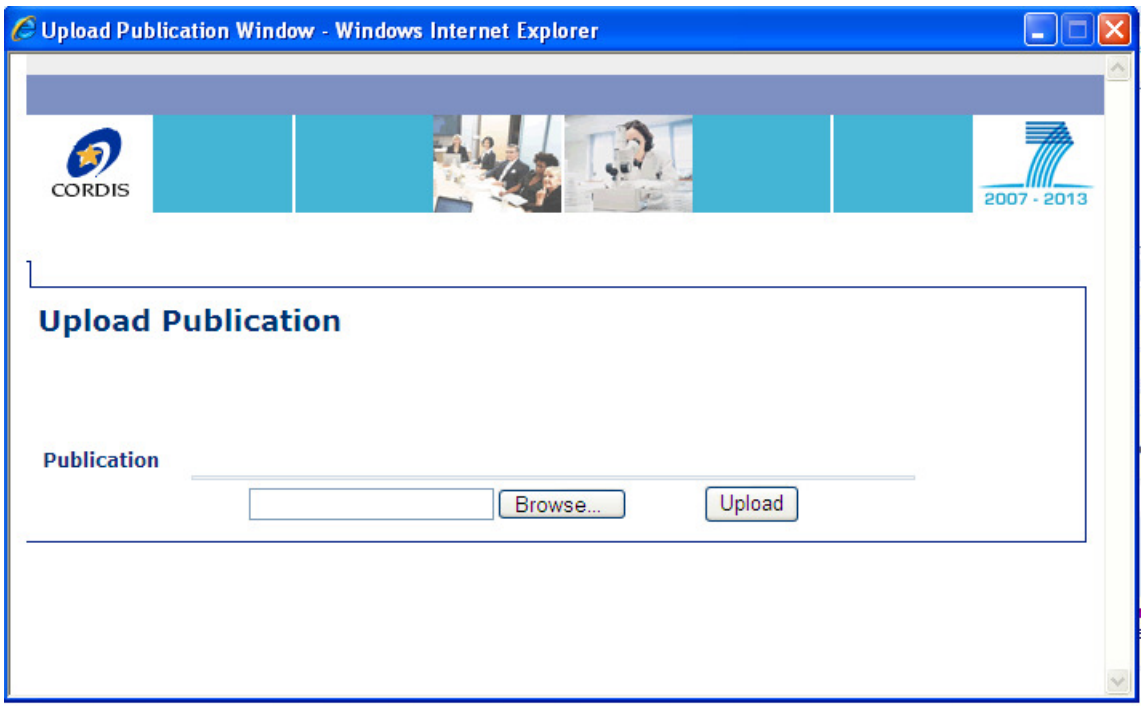

Figure 17: Upload Publication Window

3. Click the button BROWSE and browse for the attachment. The path of the selected file is displayed inside the field in front of the button BROWSE.
4. Click the button UPLOAD. The button UPLOAD becomes disabled and the uploading of the selected file is initiated. After the file upload is finished, publication file name is displayed in Title and Upload fields. The title name of uploaded publication can be changed.
5. **Access Publication:** Click the button DOWNLOAD. The FILE DOWNLOAD WINDOW is displayed.
6. **Delete Publication:** The publication file is deleted automatically by deleting row where the publication file is uploaded.

Manage publications list

This option allows managing the publications lists to the Reports to be submitted (on the reports where the publications available, e.g. "CP-CSA-NoE Final Report").

In order to manage the publications list, the following steps should be considered:

1. Reach the FORM EDITING PAGE (Figure 10), displaying the Form containing the List of publications as presented in Figure 18.

Publications (peer reviewed)
TEMPLATE A - LIST OF SCIENTIFIC (PEER REVIEWED) PUBLICATIONS, STARTING WITH THE MOST IMPORTANT ONES

Login
Questionnaires
Welcome
Welcome to SESAM, the European Commission online reporting tool for Research and Technological projects. Please note that except for MCA questionnaires, a login is required for all reports and questionnaires submission.
Starting from the release 7.0.0, SESAM is using the European Commission Authentication Service (ECAS). Apart from the authentication, the ECAS handles the entire management of the user accounts (e.g. user registration, manage password, manage personal details). For more info about ECAS, you can visit https://webgate.ec.europa.eu/ecas
If you have been already registered as a SESAM user and you don't have the ECAS account yet, in order to continue using the system, your ECAS account (already initialized during the migration) must be upgraded. Please click on 'Login' in the menu and then follow 'Don't yet have an ECAS password?' link, providing your old SESAM username or e-mail address. Only in case you were notified by the e-mail that your old SESAM username was changed you shall provide the new one. Please make sure that the domain that is selected in ECAS is 'External', not 'European Commission'. Please choose your password wisely in accordance to the instruction provided on the pages. When you have completed these steps, your account will be automatically activated. Once your account has been activated, you can login to SESAM.
If you did not manage to upgrade your account (username or email address were not recognized by ECAS), this is probably because the migration of your account failed. In such case you will have to register to ECAS as a new user, preferably choosing your old SESAM username as a new one in order to keep all the project associations that you had in SESAM.
The new users can register their accounts following the appropriate link on the ECAS Login page (after clicking on 'Login' in the menu).
Once you have been registered to SESAM you can register to a project. Each request for registration to a project will be notified to the corresponding Project Coordinator or Officer and needs to be validated by him. The requesting user will be notified of the validation by e-mail.
FP6/FP7 participants should complete their reports by logging in, choosing appropriate project and the type of the forms they want to work with ('Reports', 'Documents', 'Amendments' or 'Notifications' in the menu).
Reviewers of FP6/FP7 projects should complete their reports by logging in, choosing appropriate project and 'Review Reports' option in the menu.
Beneficiaries of Marie Curie actions should complete their questionnaires by clicking on 'Questionnaires' without any registration to the system.

`Send Email to Helpdesk`

This option allows sending emails to the helpdesk.

In order to send email to the helpdesk, the following steps should be considered:

1. Click the hyperlink HELPDESK inside the header of any SESAM - Front Office page. The CREATE EMAIL WINDOW of the default email client application on the user computer is presented, with the following email parameters pre-populated:
   - Recipient – Helpdesk email address
   - Subject – QUEST USER SUPPORT (all pages except the ERROR PAGE) or QUEST ERROR MESSAGE (ERROR PAGE)
   - Body (ERROR PAGE only) – Error message displayed on the ERROR PAGE

Login and Register User

On the HOME PAGE (Figure 28) follow LOGIN link from the menu. It opens ECAS Login Page where user provides the username and password to be authenticated and sent back to QUEST application. Also, on the ECAS Login page the register link is present for the new users that need to register themselves first.

Register as a New Participant

If you access the application through the Participant Portal, this functionality is not available.

This option allows creating new Project Participant account, assuming you are able to provide correct data identifying yourself as valid Project Participant.

In order to register as new Project Participant, the following steps should be considered:

1. Click the hyperlink REGISTER TO A PROJECT on the SELECT PROJECT PAGE (Figure 4). The NEW PARTICIPANT REGISTRATION PAGE is presented (Figure 29).

`Manage User-Project links`

The user can display overview of active users that have pending or active links on the projects on which the actor is Coordinator, using a number of filtering criteria:

1. Click the link VALIDATE USERS inside the menu on SELECT PROJECT PAGE. The USERS VALIDATION SEARCH PAGE is presented (Figure 35).

What is FP7? : FP7 step by step : Find a Call : Get Support : Find a Partner : Find a Document : Prepare & submit a proposal : What's New?

Figure 35: Users Validation Search Page

2. Specify filtering criteria:
   a. Enter username in the field USERNAME.
   b. Enter first name in the field FIRST NAME.
   c. Enter surname in the field SURNAME.
   d. Enter email in the field EMAIL.

   USERNAME filtering criterion supports the convention for wild characters:

   - % – Any character
   - * – Any characters

   FIRST NAME, SURNAME and EMAIL support:

   - * – Any characters
3. Click the button SEARCH. The USERS VALIDATION RESULTS PAGE is presented (Figure 36). The results are structured in the following columns:
   - USERNAME
   - FIRST NAME
   - SURNAME
   - EMAIL
   - ACTIVE LINKS – Space separated list of hyperlinks for deleting Active Links (format Project ID:Participant index)
   - PENDING LINKS – Space separated list of hyperlinks for activating Pending Links (format Project ID:Participant index)

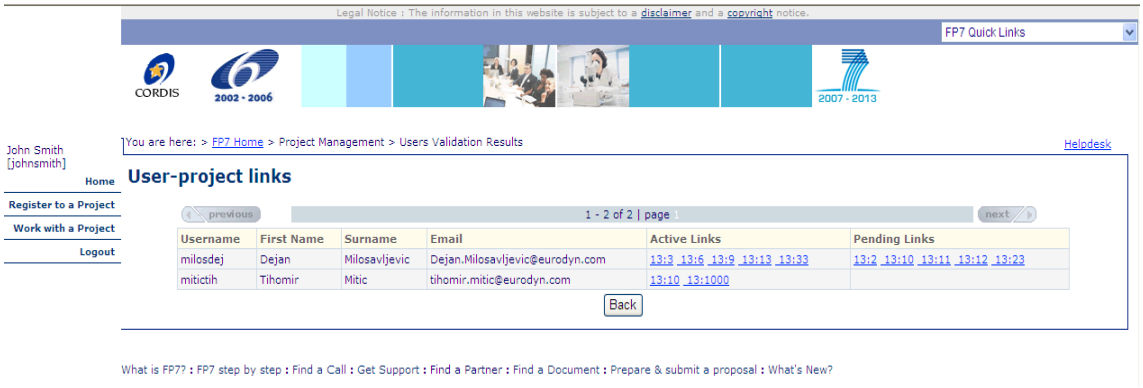

Figure 36: Users Validation Results Page

4. Navigate through users using links to particular pages, as well as, buttons PREVIOUS and NEXT.
5. **Activate Link:** A Pending Link may be activated by considering the following steps:
   a. Click a hyperlink in the column PENDING LINKS for target Link. The CONFIRMATION MESSAGE BOX is presented (Figure 37).

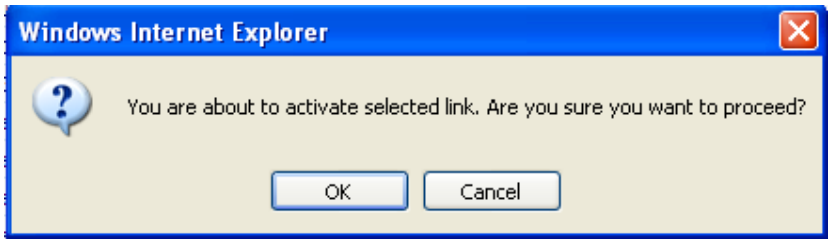

Figure 37: Confirmation message box

   b. Click the button OK to proceed (or CANCEL otherwise). The Link is activated and refreshed USERS VALIDATION RESULTS PAGE is displayed, reflecting the new status (the Link should appear in the column ACTIVE LINKS instead of PENDING LINKS).

6. **Delete Link:** An Active Link may be deleted by considering the following steps:
   a. Click a hyperlink in the column ACTIVE LINKS for target Link. The CONFIRMATION MESSAGE BOX is presented (Figure 38).

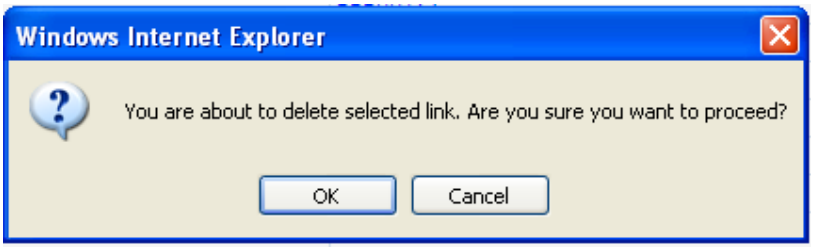

Figure 38: Confirmation message box

   b. Click the button OK to proceed (or CANCEL otherwise). The Link is deleted and refreshed USERS VALIDATION RESULTS PAGE is displayed, reflecting the new status (the Link should disappear from the column ACTIVE LINKS).

Manage Vacancies

The user can manage vacancies within QUEST application, exporting them afterwards to EURAXESS Portal once they are finalized. The main flow presumes the following scenario:

- participant fulfils the respective Vacancy form for the particular project and submits it afterwards (the Project Coordinator is being notified by email)
- such COMPLETED Vacancy becomes visible to the Project Coordinator who needs to validate it
- once validated, Coordinator exports the Vacancy to EURAXESS Portal where it will be published after some back-office check performed. Still, the Coordinator has to have his organisation registered at the EURAXESS Portal, as described on the top of the Vacancy Editing Page, within the INSTRUCTIONS section. Then, he will be able to provide the appropriate values on the form for the **Organisation Name** and **Organisation ID**, as requested from the EURAXESS system.

1. Click the link VACANCIES inside the menu on WORK WITH A PROJECT PAGE. The JOB VACANCIES PAGE is presented (Figure 39), with existing project vacancies.

Add new job vacancy
What is FP7? : FP7 step by step : Find a Call : Get Support : Find a Partner : Find a Document : Prepare & submit a proposal : What's New?

Figure 39: Job Vacancies Page

On the page the following columns are displayed for each vacancy:

- Update date - the last modification date
- Updated by – the username of the user last updated the Vacancy
- Participant index - the participant index of the user who created the Vacancy
- Job start date – optional, when the job is supposed to start
- Application deadline
- Job – job title
- Job summary
- Status (UNCOMPLETED, COMPLETED or EXPORTED)
- Export date (date when the vacancy was exported to EURAXESS)
- Action (EDIT and DELETE link are always available for the Coordinator while for the Participant they are available only for the UNCOMPLETED vacancies – otherwise, only the VIEW link is displayed).

The Participant sees only his own vacancies listed (UNCOMPLETED, COMPLETED or EXPORTED). The Coordinator sees his own vacancies listed (UNCOMPLETED, COMPLETED or EXPORTED) and also the ones COMPLETED by other Participants. The Project Officer sees all the project vacancies listed but with read-only privileges. The vacancies are sorted by Update date, in descending order. If the Export date for the exported Vacancy is more than 3 months in the past, due to the EURAXESS business rules, its update is not possible anymore, hence, instead of EDIT/DELETE links only the VIEW will be available.

2. Open Vacancy for editing

   a. Create new Vacancy:

      i. Click the button ADD NEW JOB VACANCY. The VACANCY EDITING PAGE is presented (Figure 40, Figure 41).

Job Vacancy
INSTRUCTIONS
- Please complete the entire Vacancy information before exporting it to the Researcher's Mobility Portal.
- Prior to exporting of the Vacancy to the Portal, you need to obtain the organisation account at the Portal using the web-form on the EURAXESS Jobs Portal site (please ensure you selected the "Offline" for the Editing Procedure field): http://ec.europa.eu/euraxess/index_en.cfm?l1=3&l2=1&type=1
- Upon obtaining the account, the values for the fields Organisation Name and Organisation ID must be filled accordingly. If the submitted values do not correspond to the registered Portal account, the Vacancy will be stored in Sesam but not exported to the Portal.
- For more information about the form fields click here

Figure 41: Vacancy Editing Page for Project Participant - partial

b. Open previously saved Vacancy:

- Click the hyperlink EDIT in the column ACTION, on JOB VACANCIES PAGE, for target Vacancy. The VACANCY EDITING PAGE is presented (Figure 40, Figure 41), displaying the selected Vacancy.

3. Save/Submit/Export Vacancy

a. Save Vacancy

i. Click the button SAVE - The JOB VACANCIES PAGE from which the action was initiated is re-displayed, showing the saved Vacancy with status UNCOMPLETED.

b. Submit Vacancy (for Project Participants)

i. Click the button SUBMIT.

- In case of successful submission (i.e. if all Form fields are properly filled-in), the JOB VACANCIES PAGE from which the action was initiated is re-displayed, showing the submitted

Vacancy with status COMPLETED. Additionally, the appropriate email notification is sent to the Project Coordinator.

- In case of unsuccessful submission (i.e. if some Form fields are not properly filled-in), the refreshed VACANCY EDITING PAGE is displayed, clearly presenting the invalid fields.

c. Export Vacancy (only for Project Coordinator)

i. Coordinator has to previously register his organisation account at the EURAXESS Portal, as described on the top of the Vacancy Editing Page, within the INSTRUCTIONS section. Then, he will be able to provide the appropriate values on the form for the **Organisation Name** and **Organisation ID**, as requested from the EURAXESS system.

ii. Click the button SAVE AND EXPORT TO RESEARCHER'S MOBILITY PORTAL.

- In case of successful export (i.e. if all Form fields are properly filled-in), the JOB VACANCIES PAGE from which the action was initiated is re-displayed, showing the exported Vacancy with status EXPORTED.
- The exported Vacancy should be published on the Portal, after the Portal's back-office check is done. If the invalid EURAXESS organisation account submitted on the form, the Vacancy will not be published on the Portal, after the Portal's back-office check is done
- In case of unsuccessful export (i.e. if some Form fields are not properly filled-in), the refreshed VACANCY EDITING PAGE is displayed, clearly presenting the invalid fields.

4. View Vacancy

a. Click the hyperlink VIEW in the column ACTION, on JOB VACANCIES PAGE, for target Vacancy. The VACANCY EDITING PAGE is presented, displaying the selected Vacancy in read-only form.

5. Delete Vacancy

a. Click the hyperlink DELETE in the column ACTION, on JOB VACANCIES PAGE, for target Vacancy. The CONFIRMATION MESSAGE BOX is presented (Figure 42).

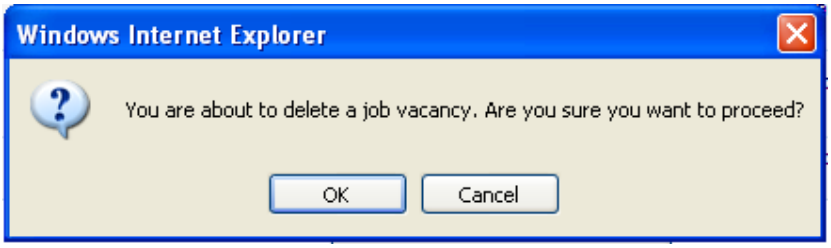

Figure 42: Confirmation message box

b. Click the button OK to proceed (or CANCEL otherwise). The Vacancy is deleted from the system and refreshed JOB VACANCIES PAGE is re-displayed accordingly.

c. If the deleted Vacancy was in EXPORTED status, Vacancy will be removed from the EURAXESS as well, after the Portal's back-office check is performed.

d. If the deleted Vacancy was the only existing Vacancy on EURAXESS Portal for the given Organisation, due to the exposed EURAXESS interface limitations, the Vacancy should not be removed from EURAXESS.

Manage Deliverables

This option allows accessing Deliverables. In order to access Deliverables, the following steps should be considered:

1. Click the DELIVERABLES link from the WORK WITH A PROJECT PAGE (Figure 5)
2. Click the hyperlink in the TITLE column, as presented in Figure 43

3. The DOWNLOAD WINDOW pops-up.
